

For this project you will need the following Data Set: Australian Taxable Income

Now you must create the following Visualizations.

Your Dashboard should have the following elements:

- 1) Bar chart segregating Taxable Income by Gender
- 2) Pie Chart Showing the Share of Taxable Income by Gender
- 3) KPI showing the number of individuals.
- 4) KPI showing the Avg Taxable Income.
- 5) A filter for Gender Rank, Occupation, and Gender.
- 6) A bar chart showing the number of individuals by occupation.
- 7) A Mekko Chart showing the Taxable income by Gender by Number of Individuals (only the top 5, do not show Others).
- 8) A Tree Map showing the Average Taxable Income by Gender by Occupation (only the top 5, do not show others).

Your dashboard should now look similar to this:
