**Data Set Needed: Consumer Spending by Generation**

For this project you need to build the following visualizations:

a) A table showing Generation, % of Spending and Category.
b) A Pie Chart (yes, I know, but chances are your organization will ask you to do one and we need to show you how to deliver) breaking % of Spending by Category.
c) A Bar Chart showing % of Spending by Category.
d) A Pie Chart showing Share of Spending by Generation.
e) A Bar Chart Showing % of Spending by Generation.
f) A KPI showing the Maximum % of Spending.
g) A filter showing the different generations.
h) A filter showing the different categories.

Your Visualization should now have the following elements
